CHARDONNAY

Chardonnay wounded.

When Chardonnay showed up to our adoption event with a five-inch wide abscess on her face, PACA took her into the fold. Her owners lost their home and a family member was taking care of Chardonnay. The family member reported her dog had attacked Chardonnay. That is why they were trying to find her a new home. PACA immediately took her to an emergency veterinarian, had the wound cleaned and gave her antibiotics.

Our volunteer Julie stepped up and took Chardonnay as a foster dog to keep her from further harm.

After two weeks, Chardonnay's wound healed, along with her happy-go-lucky spirit. Chardonnay was always a people-loving girl, but understandably leery of other dogs. To prevent overwhelming Chardonnay, she was slowly introduced to the dogs in her foster home. She now enjoys daily life with her new doggie friends; walking, playing, and hunting lizards.

Chardonnay healed and happy.

Chardonnay loves to visit the kids at the bus stop. She plays a mean game of fetch, dropping the toy each time to be thrown again. Like any younger dog, she benefits from a walk and playtime daily. She is easy to teach and wants to please. She has received some basic obedience training from her foster mom.

By living in a foster home, PACA volunteers are able to help dogs like Chardonnay recover, recuperate, and overcome behavioral issues. Our foster parents are also able to assess what type of home and family our rescued dogs would most thrive in. We perform a screening process prior to adoption to make sure the dogs are matched to the perfect, happy family.

You can see Chardonnay at our dog adoption clinics held every Saturday (weather permitting) from 11-2.

They are held outside in the SPROUT's MARKET south parking lot under the trees (Academy & San Mateo). Come see Chardonnay and all of our other adoptable dogs there. Also you can see all of our adoptable dogs at NMPACA.ORG.

Beautiful and ready to be adopted.

Angel

PATIENTLY WAITING FOR HER FUREVER HOME.

Angel is a beautiful and sweet Pit that was rescued from a horrible situation. She has been available for adoption for nearly two years. Although she has a loving and tender personality, she does not care for other dogs (or cats), and she must go to a home with no other pets. To complicate matters, Angel was recently diagnosed with an eye disease that is causing her to slowly go blind. This seems awfully unfair for a young dog of only four years-old. The

eye disease is called Progressive Retinal Atrophy (PRA) and is untreatable and incurable. We are determined not to give up on Angel, and we are committed to finding her a home. If you cannot adopt Angel, maybe you know someone who might be interested. Please spread the word to friends, family, and coworkers. To see more about Angel go to PACA's website: nmpaca.org. You can also meet her at our Saturday Dog Adoption clinics.

ADOPTION CENTER

Viewing pets for adoption online is easy and convenient. But there's nothing like seeing these little sweethearts in person. PACA/AAR has an amazing cat volunteer team that keeps our Adoption Center running smoothly and successfully throughout the week. A great place to see our adoptable cats is at PETSMART on Wyoming and Academy (NE Heights). Cats and kittens are there 7 days a week for viewing. Take a look at what life is like for our temporary residents.

Don't Forget About Kitty City!

Kitty City is located at CLARK'S PET EMPORIUM on Menaul and Juan Tabo.

PACA/AAR has been allowed to show our cats in a free-roaming section of the store for many years. Cats are also there 7 days a week. They too have a happy, active life there while waiting for the perfect family to come along.

Pastel is waiting behind the Kitty City window inviting you to join her inside. You will be happy if you do, as she has the softest fur and most loving personality. Volunteers all agree she is the sweetest girl ever! Her favorite toys are a pen/pencil to wrestle while tossing it in the air and a wand with anything hanging from it. Her color is an extremely unique cappuccino and cream.

Robert Wallace was brought to VCA Wyoming with a back leg injury. He may have been hit by a car or mauled by a dog. Dr. Martin, a Good Samaritan herself, x-rayed and treated him. She contacted PACA, and we took him in. He recuperated quickly and uses his leg well. He loves to investigate everything and everyone.

Lady Jane is a beautiful short hair calico cat. She is currently shy in her new surroundings at Kitty City. She is coming out of her shell with all the attention this little lady deserves from our volunteers. Her favorite place is in her soft tunnel (shell). She just loves to be petted and have her head brushed by her very own toothbrush. She is a very sweet Lady indeed.

Please see page 11 of this newsletter for cat adoption locations and times.

FUN FOSTERING KITTENS

by Clara Strow, Age 10

My dad didn't say no, so we got to foster kittens! When my teacher, Mrs. Haley, first brought them to our house they were so tiny each one could fit in the palm of my hand. My sisters and I based their names on Star Wars characters. First there was Han Solo, then Luke, Chewbacca, Maz, and Stormtrooper who we called Stormy for short. Me and my sisters had so much fun playing with them and cuddling with them while they slept. They meowed in chorus each time they were waiting to be fed. They ate, and grew, and ate, and played, and ate and slept. Everyone we saw we told about the kittens, and inquired about their need for a new pet. My best friend Alia and her family decided to adopt Luke and Han! And my family was going to adopt Stormy!

When the kittens were old enough to have their surgeries, it was very sad to see them go to the Vet, but we knew they would be back in a matter of hours. Once they were back it was time to prepare Chewbacca and Maz to go to the pet store to get adopted there. It was very hard to let them go. We all cried and reminded each other that Mrs. Haley and the other PACA volunteers would only let them go to kind people. When we got home, we still had three kittens to care for, Luke, Han, and Stormtrooper. Once they were fed, we put them in their cage, and went to bed. In just two days, Maz and Chewbacca had found homes! Alia's kittens went to her house and got new names: Charlie and Toby. And Stormy began to feel like ours. (In fact, he's been helping me write this article the whole time. I just found another pencil to keep writing this because he is chewing on mine).

Once Stormy was settled in, we had another surprise around the corner. We were going to foster another litter of kittens! Mrs. Haley brought them over and they were huddling together, terrified in the back of the cage. We coaxed them out, scooped them up, and then got to the best part, naming them. The Chronicles of Narnia was our inspiration because we listened to the books every day as we drove to swim team. So, caring for Peter, Susan, Edmund, and Lucy became our favorite part of each day. Peter was the only kitten out of the four who had to go to the pet store for adoption. He quickly found a great home, and is living on a farm with another kitten named Sophie. Susan was adopted by our friend from swim team, Gillian. Now she has a great home and will get lots of snuggling. Another swim friend, Ava, adopted Edmund and Lucy who are guaranteed a lot of love. We miss them, but know they are having wonderful lives.

Kato Snuggles his way into the Right Home

Kato originally came from Bernalillo County Animal Control. He is an adorable, enthusiastic American Bulldog. He had gone to a couple of homes, and unfortunately they didn't work out for him. He ended up back at Bernalillo County Animal Control. One of the Animal Control Officers contacted us. She said he was such a happy-go-lucky boy, and wanted to know if PACA/AAR could help him find the right home that works for him. We were told that Kato did not do well with other dogs, and should go to a home with no dogs or cats. We took our time assessing and screening families. Lynda and Tony fell in love with Kato, and now he is pretty anchored in to his new home where the

only other pet is a bird. His new name is SAM I AM.

Sam's new family is thrilled with him and said "Sam is owning the place! He found the bed right away. He has quickly become a bonded part of our family. He is quite amusing: he pulls watermelons off the vine and chases them around the yard. He loves to dig!! But it's OK, we love him! He is an absolutely amazing dog!! We can't thank you enough for your kindness."

Happy Tails

Tuna (orange) and Monkey (orange and white): Monkey was adopted with the intention to become friends with my new kitten Tuna so that he would leave my old, stressed out female alone. It worked! They are now friends, and Tuna leaves my older female alone! She has now come back out of hiding.

- Linda

Hello, My name is Alia, I am 10 years old and I love animals! My good friends were fostering kittens when I fell in love with Charlie who has six toes on each of his front paws! As you can see, he is beautiful. He is also gentle and happy. His brother Toby was still not adopted. I wanted them to be together, so asked if we could also adopt him too. My parents said YES!

Skeeter:

"We had many names at first, but this stuck. Want to thank you again for your foster of this family. Wish we had taken his bro too. We are sooooo smitten. He has a charmed life with us."

- Carol

Boromir: Mr. B and owner Baillie share a mutual adoration that is unmatched.

Little Roo Makes a Big Comeback

Little Roo came to us back in October of 2016. He was abandoned along with a litter of puppies out in the boonies of the Los Lunas/Belen area. Roo was in particularly bad shape. He was very, very tiny and emaciated. The kind people that took him in didn't know what to do with sickly Roo, so they fed him soda hoping it would settle his stomach. When he became worse, they contacted PACA/AAR. He was immediately taken to an emergency vet. He was treated for dehydration and had a very bad infection due to an internal parasite. He spent a very long time at his new foster home getting over the infection and trying to get up to the proper weight. Once he recuperated he

was ready to find his forever home. He found a wonderful family and is now named Barley. He is quite content to just lie down near his new family and be wherever they are. They say "He's very alert and 'watches' his surroundings. He doesn't like to leave our side to play fetch so we run around the yard with him, which the neighbors probably get a laugh at. He's got incredible hearing - he ran over to get something in the grass 10 feet away, and when we went to see what had his interest, it was a beetle. We're heading out for walks around the neighborhood more, so he gets used to his surroundings." As you can see Barley is quite happy and big now!!

New Beginnings...and a new home!

Elyse has been a volunteer for the PACA/AAR cats at Petsmart for many years now. When she got married a couple of months ago, she thought it would be really cool to have a kitten

ring bearer at her wedding. However, she determined that none of her adult cats would perform very well in that kind of excitement. Then we thought of foster kitty Drake right off the bat, because he's so friendly and outgoing. He was the star of the wedding and icing on the cake! To top it all off, a couple who were wedding guests came down to Petsmart that very evening and adopted him!

FIX THE 5🐾5!

YOUR DONATIONS CONTINUE TO SUPPORT OUR FIX THE 505! SPAY/NEUTER PROGRAM.

Thanks to our dedicated donors, PACA/AAR's free spay/neuter program continues to have an impact. To date we have spayed/neutered 168 dogs/pups and 825 cats/kittens that would have gone unfixed. One of our recipients Josephine (annual household income below \$10,000) tells us "I would not have been able to neuter my pets (2 male dogs) because I am disabled and I only get so much a month. Thank you for this program." Here are some pictures of other pets that have been spayed/neutered using our program.

"No more pups for me!"

Finally spayed!

What a Catch! Born to a feral momma cat..caught just in time to tame.

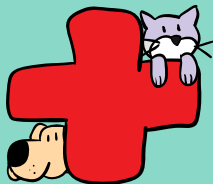

Featured Creatures

SPECIAL NEEDS FEATURE

SWEET PEA

Sweet Pea is a feisty 9-yr-old diabetic with a hilarious eccentric personality. She likes to run on the cat exercise wheel for treats, carries around a stuffed moose bigger than she is while announcing what a superior hunter she is (she also steals dish towels and even bath towels), growls at you if you don't share your food, and lets it be known that SHE is queen of the house and should be treated accordingly. She will definitely let you know when "We Are Not Amused". She likes to sit in your lap, be adored, and be in the same room with you. She has lived with other dogs and cats but would be happiest as the one and only adored pet in the home. She may not be suitable for small children.

CURIOS COUNT CARIÑO

Cariño was found all alone and abandoned at an apartment complex. He is approximately 1 year old. He is a big bouncy kitten who loves to play and would like to have a playmate(s) (4 legged or 2 legged). He loves everyone and enjoys being a lap cat too. He has a natural curl at the end of his tail which matches his curious adorable character and personality. Look closely and you will see a heart shaped pattern on his head. Cariño means sweetheart, love, affection and darling.

SIR SAMUEL

Sir Samuel a handsome Lynx Point Siamese cross. He was found declawed, yet was hanging out with a feral colony. His knightly appearance and charm let everyone know he was not feral at all. PACA was called in to rescue him. Sir Samuel is very friendly with people and other cats. This extraordinary guy is sure to catch your eye at Kitty City.

JUNIOR: Waiting a long time

Junior is about 6 years old. He is a Chihuahua mix. He is nervous meeting new people, but once he warms up he is playful and cuddly. He is crate-trained, housebroken, good with cats, and loves to go on walks. He would do best in a home with no small children. This little guy has been waiting a long time for the right family to find him.

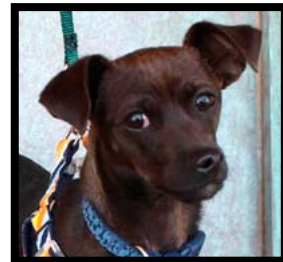

PRINCESS PATRICE

Princess Patrice is a mere kitten herself at just over 1 year. PACA was called in to rescue her at a warehouse. She walked right up into the arms of our PACA volunteer. Young Princess Patrice was caring for her 2 week old litter of 3 kittens. She is now living the life of a young playful princess. She loves to explore, tease, play with anything, be petted and sit on laps. This precious little princess will capture your heart at Kitty City.

LORD RUPERT

Lord Rupert was found among a feral cat colony. He walked right up to a PACA volunteer and said, "Hey, I am not feral so take me home." And, he sure isn't feral! He is royal in size and stature, yet uses gentle communication as he greets you. He is the friendliest, most outgoing and fun loving cat you'll ever meet. No one is a stranger to Lord Rupert.

MOCHA: Waiting a long time

Mocha is 1 year old. At first he can be somewhat shy, but does warm up to people and dogs with patience. He needs a home with another playful dog. He and his foster brother play and wrestle and have great fun. He is good with cats. He is housebroken with a doggie door. He likes to sleep in his crate but with the door open. He yearns for his forever home.

About Us

PEOPLE'S ANTI-CRUELTY ASSOCIATION/ALBUQUERQUE ANIMAL RESCUE (PACA/AAR), a No-Kill rescue group, was founded in 1973. Our main mission is to rescue, rehabilitate and rehouse homeless dogs and cats. PACA has no shelter facility and relies on an organized network of foster parents who graciously take animals into their homes and hearts until permanent homes are found.

RESCUE: No-Kill means that healthy, adoptable animals are not destroyed because they are homeless or to make room for another animal. The Care-For-Life concept allows PACA to offer an alternative program for homeless, abandoned, sick, and injured animals. The number of animals we can assist depends on the foster care and financial resources available.

REHABILITATE: PACA devotes resources to correct an animal's health or behavioral problems.

REHOUSE: Care-For-Life rescue requires short and long term temporary housing for animals. This is best met by foster caregivers, not traditional kennel facilities. Foster families are asked to provide transportation to adoption clinics as much as they are able.

SPAY/NEUTER: PACA operates and funds programs to provide spay/neuter in the community, and we trap feral cats for the Trap-Neuter-Return program. We have already had significant success in preventing cat and dog population growth in Albuquerque.
